100ul;

UniProt : O00526

Alternative Names : UPII; Uroplakin II

Application:

Reactivity : Mouse;Rat;Human

Application : IHC IF

Dilution:

Immunocytochemistry: 0.2-2 μ g/mL;1:250-2500

Immunohistochemistry: 5-20 μ g/mL;1:25-100

Optimal working dilutions must be determined by end user.

Purification:

Antigen-specific affinity chromatography followed by Protein A affinity chromatography

Storage Condition and Buffer:

PBS, pH7.4, containing 0.02% NaN₃, 50% glycerol.

Tag : Signal transduction;

Form : Liquid

Concentration : 500 μ g/mL
