BACKGROUND

50kD or 25kD protein detection on Western blots after Immunoprecipitation is often suffered from heavy or light chain blotting contamination. AbSmart products (M21008) solve these problems through less background noise, and enhanced accuracy.

REACTIVITY

Mouse, Rat, Rabbit, Guinea pig, Human, Monkey, Pig, Cow, Horse, Dog, Goat, Sheep, Llama.

Only for use to IgG, NOT for use to IgA, IgM, IgD, IgE, IgY ect.

COMPANION PRODUCTS

#M21004 Goat Anti-Mouse IgG HRP(避免重链)

#M21005 Goat Anti-Mouse IgG HRP(避免轻链)

#M21006 Goat Anti-Rabbit IgG HRP(避免重链)

#M21007 Goat Anti-Rabbit IgG HRP(避免轻链)

STORAGE

Store at -20°C . Stable for one year from the date of shipment.

APPLICATIONS

This product has been optimized for use as a secondary antibody in chemiluminescent applications.

RECOMMENDED ANTIBODY DILUTION

ELISA	1:1000 - 1:5000
Western blotting	1:1000 - 1:5000
IHC	1:500 - 1:2000
